Is Internet Access Breaking Your Bank?

Well, we've got the solution. It's the Black Magic Internet Sharing Server, a great product that we've been using for about a year. It's fast and allows multiple users to access the Internet using one phone line and one Internet account. Stop in or call for more details.

Features:

- Simultaneous access for up to 20 users with independent e-mail.
- Uses only one standard phone line and one Internet account
- High speed modem that can be upgraded.
- Connects to your office network.
- Automatically connects to ISP on demand and disconnects during idle periods (timeout settable).
- Three year warranty.
- Available with US Robotics 56K modem using x2 technology.

Computer Solutions Unlimited Voice Mail

If you call the office and get the voice mail, here's what to do:

During Business Hours: We have a full-time receptionist to answer the phone; however, if voice mail answers during business hours, this means our staff are on other lines assisting other customers. Listen to the options and dial through to whomever you wish to speak, or dial "0" for the operator.

After Business Hours: After 5 PM and on weekends, the voice mail will answer. Listen to the options and push the appropriate button to leave a message. Please leave a message, as we check our messages regularly during off business hours. If you need emergency tech support during these times, dial "6" after voice mail answers. There will be a charge for emergency calls. If there is still no answer, leave a message and a technician will be paged and will call you back.

We recently purchased one of these printers for use as a display model. We found it to be a very high-quality product as well as extremely versatile. Come on in and check it out!

Features:

- 600 x 600 dpi resolution printing for true photo-realistic color.
- Full-fledged 600 dpi single pass, TWAIN-compatible color scanner with design software.
- Patented, waterproof Micro Dry™ ink won't fade or smear.
- Razor-sharp 1200 x 600 dpi black and grayscale for laser-like sharpness
- Exclusive Metallic colors add dazzling accents to whatever you print.
- Includes a Sample Kit with a variety of media: T-shirt transfers, Hi-grade paper, and Greeting Cards

Tips & Tricks - Windows 95

Quick Access to Desktop: If you have lots of windows open, right click on the task bar and choose Minimize All Windows. To restore all windows, right click the task bar and choose Undo Minimize All.

Find: The quickest way to bring up Find is to click anywhere on the desktop and press F3
